- Pre-Purchase Inspection Reports
- Insurance Claims

Whether you're going on holidays or you just don't have enough time in your week-end to get everything done, we can help. Donemans have a maintenance routine to suit your needs. We have a **Service Manager (with 20 years experience)** plus 3 Full Time Technicians on staff to look after your pools needs.

General Maintenance Tips Cleaning the skimmer & Pump Baskets

Cleaning the skimmer & Pump Baskets regularly is important to the overall maintenance of your swimming pool. Clogged baskets mean your pump has to work harder to try to cycle the water. This can

decrease the life and stress the seals in your pump. With water flow impeded by baskets full of debris, you are not getting the proper turnover rate to properly filter your water. For your pool to stay clean & clear the water must be filtered. With your skimmer and pump baskets full of debris, you are not pulling as much water to the pump, and not filtering as much water as if the baskets were kept clean. This can have a negative effect on your **pool maintenance**. Clean the skimmer & pump baskets at least once a week to ensure your pool remains in pristine condition.

Filter Maintenance

It is recommended the sand in your sand filter be replaced every 5 years to ensure your filter continues to operate efficiently. When filter efficiency is allowed to diminish the pool becomes harder to look after and more expensive to run. Let our experienced Pool Technicians do the job for you.

Product of the Month

Aquashield 3 when regularly added to your pool will limit the **THREE** main problem areas where the formation of calcium and magnesium based scale plus metal staining occurs. These are specifically:

1. **Salt Cell** where calcium build up on the cell will decrease the production of chlorine gas
2. **Pool Surfaces & Equipment** where combined water hardness forms in time a hard scale which is unsightly on pool surfaces and can damage the operation of pool equipment.
3. **Surface Staining** where oxidisation of minerals in the water source or introduced in the salt added to the pool, can cause staining.

The benefits of **Aquashield 3** are:

Prevention of calcium & magnesium build up on pool surface.

Prevention of metals dropping out of solution.

Assists with keeping calcium build up on the salt cell soft to ensure chlorine production is not inhibited.

Assists in the removal of metal stains.

Pool Maintenance 101

Donemans make it easy!

So you have a new swimming pool or just moved house and have inherited one. Do you know what it takes to keep a pool ready to swim? Don't be overwhelmed! With some basic maintenance, your pool will be ready to swim when you are.

Donemans Pool Centre offers a "Special Instruction Service" which is designed to teach you all the basics about caring for your pool. This one-on-one at-home service generally takes around an hour, and the level of instruction depends on the owner's knowledge. This service provides new owners and tenants of homes with pools the vital knowledge about general pool maintenance and equipment operation.

Donemans Instruction Service is quite comprehensive and encompasses elements such as:

- | | |
|---|-----------------------------------|
| Emptying skimmer/pump baskets | Balancing Water |
| Backwashing filters | Testing Pool Water |
| How to vacuum the pool | How to clean the salt cell |
| Cleaning Equipment | Using pool Equipment |
| Basic Instruction in Chemicals | |
| Checking Equipment & determining if repairs are required | |

At the end of the Instruction we also provide a water sample bottle which can be used to collect pool water and bring it in to store for regular, **FREE** computerized water testing. Don't hesitate, call us today!

MagnaPool Minerals

Transform your pool into a luxurious mineral bath. Specially blended minerals are designed to soften your pool or spa water, for a swimming or bathing experience like no other. Swimmers can absorb up to 500ml of water in an hour of pool use and the unique blend of Magna Pool Minerals can provide health benefits for the skin, hair, eyes & nervous system and can aid in the reduction of stress, anxiety, aches & pains. Suitable for most Salt Chlorinators, it is easily dissolved in the pool water & its ingredients help prevent calcium and scale build up in the salt chlorinator cell, heaters, pool interior and other equipment.

Equipment Sales & Repairs

Noisy broken pump, filter or chlorinator? We'll fix it!

Whether repairing existing equipment or installing new, no job is too big or too small. Our expert technicians can find the right solution for your budget.

Pumps: We are the local Onga dealer & we service what we sell. Also available are the Speck Badu Eco touch pumps, which is a six star environmentally friendly pump. The saving on your electricity bill is quite extensive

Filters: Make sure your pool stays sparkling clear with one of the newest filters on hand.

Chlorinators: Keep you pool clean, clear and safe to swim in. Save yourself time & money with a chlorinator. We have a wide range available.

Automatic Cleaners: We can help with your automatic cleaner requirements. Whether suction, or even robotic, we have plenty to choose from. Donemans can help you choose the right cleaner for your pool.

Sparkling Water Doesn't Happen By Itself - Leave it to the Professionals?

If your schedule is crazy-busy, or you're simply not the do-it-yourself type, call on Donemans Pool Centre who are ready to make pool ownership hassle free. **We can provide services like:**

Weekly / Monthly Maintenance
Pool Liner Replacements

Equipment Maintenance & Repairs
Water Testing and Treatment
