Filter Maintenance

It is recommended the sand in your sand filter be replaced every 5 years to ensure your filter continues to operate efficiently. When filter efficiency is allowed to diminish the pool becomes harder to look after and more expensive to run.

Donemans is now supplying FLO Glass Media, a revolutionary filter media that helps your pool look cleaner than it ever has before. And it lasts up to 10 years!

Let our experienced Pool Technicians do the job for you. Contact us today for a quote.

Swimming Keeps You Young

We all know exercise is good for us, but did you know that swimming works and tones almost every muscle in your body without putting stress on your joints?

Here's a rundown of some of the health benefits a regular swim can have for you:

Improves your Mental and Physical health

Swimming for 30 minutes three times a week reduces your risk of type 2 diabetes by more than 10 per cent, as well as raising the levels of good cholesterol, which in turn reduces your risk of heart disease. As well as improving your cardiovascular health, the way your brain replaces cells that are lost through stress can be altered through regular swimming, so if you've been feeling a bit down lately, jump in your pool to improve your mood.

Stretches and strengthens the body

As you swim, with each stroke you are reaching out and therefore lengthening your body, stretching and toning most muscles from your top to your toe. Your arms and shoulders especially get a good workout, as they pull the rest of your body along, while the kicking action from your legs definitely gives your leg muscles a bit of work.

Anyone can do it!

Did you know that when you are up to your neck in water, you are only supporting 10 per cent of your total body weight? This means that swimming is very gentle on joints, and therefore is suitable for just about everyone, from the elderly, to the injured and the disabled. Exercise in water is a great way to ease back into activity after injury, and provides a safe environment for those with limited movement in their joints.

Shrinks your waistline

Swimming is fantastic exercise to incorporate into your regime, particularly if you are trying to lose weight or maintain a healthy weight. It provides both a resistance and cardio workout at the same time, optimal for weight loss! You'll be toned and ready for that bikini / speedo in no time at all.

Saving Money is Always in Season

A top tip is to replace your single speed pump with a multi (or variable) speed pump. They've been engineered to significantly reduce high electricity consumption and CO2 emissions. These energy saving pumps have a three speed motor which allows owners to set the pump at a low, energy saving flow rate. The pump uses almost 80% less energy than when operating at a standard high flow rate speed. It won't take long before it well and truly pays for itself.

Save The Date

Our Annual Open Day will be on again this year on Saturday 16th September.

Equipment Sales & Repairs

*Have a noisy pump, leaking filter
or beeping chlorinator?
We'll fix it!*

Whether repairing existing equipment or installing new, no job is too big or small. Our expert staff can find the right solution for your budget.

Pumps: It could be screeching bearings or water on the shed floor, but Donemans can fix it. If it's time to renew your pump, see our friendly staff for a wide range of replacements. Available are 3-speed energy saving pumps, sure to lower your power bill!

Filters: Make sure your pool stays sparkling clear with one of the newest filters on hand. Also important is keeping your filter media clean & refreshed. Sand filters should be backwashed once a month and sand changed every 5 years!

Chlorinators: Keep you pool clean, clear and safe to swim in. Save yourself time & money with a salt water chlorinator. Donemans stocks Chlorinators & Hydroxinators, and can help you find any spare parts you need.

Automatic Cleaners: We can help with all of your automatic cleaner requirements. Repairs or replacement, suction or robotic, we have the solution for you. See the friendly Donemans staff for advice & information about the latest cleaners in stock.
