- Take it anywhere, from your pool to your house, the beach to camping
- Patented lens for a dazzling light show
- Includes USB power cord.
- No batteries required.

ONLY \$90!!
IN STORE NOW!!

- 1. Recommendations from family or friends are rarely right** – simply because *no two pools are exactly the same*. **What works in their pool may not work in yours.**
- 2. Choose value over price** - A cheaper cleaner from a hardware store may look like a bargain, but if it doesn't clean your pool, gets stuck, continually breaks down or only lasts a season (or less) – **is it value for money?**
- 3. Look at the full cost of ownership** - As well as the initial purchase price, **consider the ongoing requirement for costly maintenance.**
- 4. Nearly every pool is different** - A cleaner that works well in a large concrete pool may get stuck in a geometric fiberglass pool. **It takes an expert to know which cleaner will work best in each.**
- 5. If it doesn't work efficiently, it's not worth having** – **There are great differences in the cleaning efficiency & reliability of different types of cleaners.** Don't spend money on maintenance or parts for the wrong one for your pool.
- 6. Choosing quality always pays** – **because you only get what you pay for.** Paying a little more always saves money in the long run. **So choose the best quality pool cleaner you can afford** – you'll benefit from greater cleaning efficiency, reduced maintenance costs & a longer working life.
- 7. What's the warranty** – **Warranties are your guarantee** that the manufacturer stands by the quality, reliability & durability of its pool cleaners.

Getting the Right Advice

After you've considered everything – ask your local pool professional for their advice. It's free and will help you avoid making a frustrating and expensive mistake.

Pool Construction

At Donemans, we are specialists in swimming pool construction - building quality pools since 1980 for local Bundaberg residents. We build concrete pools with designs varying in size and shape to suit every home. If you or someone you know is looking for a pool, the Donemans team is the right choice.

Here are some of our pools that we have recently completed in the Bundaberg Region.

CPR Signs

Pool Safety Laws require a CPR sign to be displayed near each pool, so that the sign is easily visible. The signs should be the latest prescribed signs to comply with council guidelines. Colourbond & Plastic CPR Signs are in stock NOW!
