Heating it up

The days may be growing shorter & cooler, but that doesn't mean you need to pack away your cossie, floating pool lounge & summer book.

Maintaining the ideal pool temperature doesn't come naturally, but with the right heating option you can extend your swimming season.

Here's a basic overview of the 3 main heating options – heat pumps, solar heating & gas.

Heat Pumps – Reliable, highly efficient & economical to run, heat pumps work in a similar fashion to a reverse cycle air conditioner.

Solar – The most environmentally friendly option of all, solar pool heating operates by using the energy of the sun.

Gas – Gas Heaters are the fastest method for heating your pool, providing a comfortable temperature for swimming on demand. Gas systems use natural gas or LPG to heat the pool water by pumping it through a heating unit normally on the filtration line.

Keep up your maintenance: Once you've completed your preparation for winter, it's imperative that you stick to a maintenance schedule, even though it's cold & the pool is not being used. Do a visual once a week & make sure all your equipment is working. Check the water level & baskets & if in doubt *Donemans Pool Centre* technicians are available to provide advice and service.

Product of the Month

Lo-Chlor Winteriser

Lo-Chlor Winteriser Algaecide was developed to specifically kill and control algae blooms during winter.

Lo-Chlor Winteriser ensures you can maintain an algae free environment over the cold winter months.

SAVE MONEY as you need only run your filter for a minimum number of hours as Lo-Chlor Winteriser protects through the winter whilst usage is at a minimum.

Feature & Benefits

- . Enhances chlorine production & chlorine efficiency
- . Minimises maintenance during winter
- . Completely safe to use with all types of pool surfaces
- . Lasts for up to 90 days
- . Great maintenance protection during winter
- . Kills all types of Algae (blue-green, mustard, black)
- . May be used in all pool types
- . Compatible with all recognised sanitisers & other pool additives
