Heading away on holiday and don't want to return to a green pool? Leave your pool servicing in the safe hands of a Donemans Pool Centre Cert IV Qualified Technician so you have one less thing to deal with when you return. Donemans are able to provide weekly, fortnightly or monthly Pool and Equipment services that will keep your pool sparkling clean!

Contact Donemans today to arrange your service now! Please provide us with as much detail as possible so that we have a better idea of your requirements when you arrange your service.

Quick Fixes

A simple & easy way to ensure you get the best performance out of your pool filter is to "treat" your filter to a regular clean at the start & the end of the swimming season.

Instant Filter Klens has been designed to be used as part of the regular cleaning routine for all cartridge filters. It quickly removes debris, oils, body fats and dirt utilizing a unique "No Soak" formula to minimize down time of your pool, spa or hot tub.

Do you really want to be swimming in water that is passing through an oily, greasy sludge inside your filter?

Heating it up

The days are growing shorter and cooler, but that doesn't mean you need to pack away your cossie, floating pool lounge & summer book. Creating & maintaining the ideal temperature doesn't come naturally, but with the right heater you can extend your swimming season. The three main heating options are:

Heat Pumps, Solar & Gas Heaters.

Talk to us today so you can make the right choice for your pool.

Did you know?

Swimming pools have to be kept very clean in order to enjoy and use them. The use of swimming pools are common now days, as many people build one at their home. But *it is very important to maintain them properly* to get the most out of them. If you use an unclean swimming pool which is not maintained in a correct manner, it can cause many symptoms most of which are quite unpleasant.

There are some instructions that you need to follow for keeping a swimming pool clean, such as:

- Surface Skimming
- Tile Cleaning
- Maintaining the Skimmer & Pump Strainer Basket
- Pool Vacuuming
- Pool Brushing

Bigger & Better!!

Construction has started on Stage 2 of Renovations to Donemans Pool Centre's Super Store. Watch this space as we progress on our expansions to bring our clients bigger & better things.

Pool Blankets

Why should you consider purchasing one....

The answer is that it will substantially increase the value and return on the investment you have made in your pool or spa by achieving the following;

*Keeping evaporation to a minimum, you not only save water, but you also save on the cost of chemicals as you don't have to rebalance your pool after topping up.

*Blankets keep the pool cleaner – about 80% to 90% of debris is kept out of the pool.

*Reduces pool heating costs by up to 50%. Effectively 90% of heat loss is from the surface of the pool.

*Extend the swimming season. Even without other forms of heating on the pool, the addition of a pool blanket can result in a temperature increase of from 6-8 degrees in a pool that has a sunny aspect.
