10 Great reasons to have a pool

Backyard swimming pools are an essential part of Australian life. Yet there are still some people who have yet to be convinced of the benefits. Here are 10 great reasons to convince them to join the (pool) party.

1. **Owning a swimming pool is like being on permanent holiday** – without the expense. Why pay thousands to share a pool with dozens of strangers for a week or two when you can enjoy the water every day (especially to relax after work).
2. **It is a great memory maker.** Long after the kids are grown and gone, they (and you) will remember the fun and games everyone had during those long hot summers.
3. **It's a theme park at home.** The travel, the cost, the parking. Why have all that hassle when there are so many games, floats, slides, and toys available that you will feel like you have your own theme park. No waiting in long lines and you control the hours.
4. What better way to **get fit and healthy** than to swim a few laps before or after work? Or if the **pool isn't** big enough to swim laps, do some aerobic exercises or just jump around and have fun with the kids. Plus, exercising in water puts less stress on limbs and joints while building endurance and conditioning your heart. Best of all you don't have to get in the car and drive anywhere or pay anything.
5. **Stress** is, unfortunately, a part of life. But water has a **calming effect** whether you're watching it, listening to it or, best of all, floating in it.
6. Get the kids out into the **fresh air.** Trying to get the kids away from the TV and computer is a challenge. All parents want their children to play outside in the sunshine. Very few kids can resist a sparkling pool and a couple of friends.
7. **Easy maintenance.** Now days pools are very easy to maintain. Many come with advanced electronics, remote control features, and simplified operating procedures. **Donemans offers a pool cleaning and maintenance service** that takes care of all the work for you. Spend more time enjoying your pool and less time maintaining it.
8. **A pool adds beauty.** Your home may be gorgeous but it can be even more beautiful with the addition of a swimming pool. Pools are fun and functional but they also add a certain grace to every landscape.
9. **A pool is wonderful any time of day.** Sitting by the pool early in the morning while the birds chirp and the air is still cool is an exhilarating way to start the day. And, in the evening when you are exhausted from a long day, nothing can soothe you like the moonlight reflecting off the cool water of your pool. No matter the time of day, a pool invites you to linger and relax and just be.
10. **A pool is the best backdrop for entertaining.** Being outside next to a sparkling pool adds a special something to any gathering. Even the food and conversation are better!

Water Testing & Chemicals

Water balance is the key

To keep your Pools and Spas sparkling at all times you'll need to **check your water balance regularly**. This is crucial to ensure a **pleasant healthy swimming experience and to prolong the life of your pool surface & equipment**. Get your pool water tested regularly (**at least every 4 weeks**). Our expert staff will work out the correct water balance for your pool or spa, based on years of experience and accurate computerised water testing. This is a **free service** for regular purchasing customers.

You do not need to be an expert yourself – trust and **rely on the expertise of Donemans Pool Centre** with over 40 years experience. Get the right advice about your pool or spa and the products needed to maintain exceptional water quality.

Product of the Month

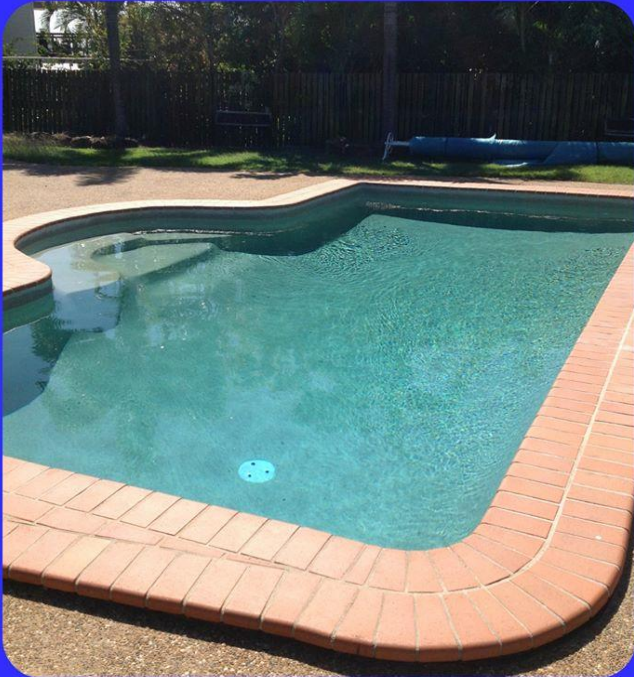

Did you Know?

- * **An hour of vigorous swimming will burn up to 650 calories. It burns off more calories than walking or biking.**
- * **Swimming is a great cardiovascular exercise because you are moving against the water's resistance, which is over ten times that of the air.**

Now is the Time to Renovate

Is your swimming Pool looking tired & outdated? Then it's time to talk to **Donemans Pool Centre**. Our Design Ability & Talent to Visualise the Finished Product, has helped us exceed the expectations of many Happy Customers.

Call for an obligation **FREE** Quotation, you'll be surprised how inexpensive it can be.

Here's another renovation job we've completed. This pool's pebble interior was starting to look old and was coming away from the walls. The owner decided to re-pebble the pool and make it look like new again. Remember NOW is the time to renovate!!!

Customer Testimonial.

After talking to several other companies about building a pool at our new house, we went with Donemans. The main reason was the services and information we received from Hayden and the fact he listened to what we wanted to achieve.

The pool was done on time and Donemans worked with our builder to make sure everyone involved knew what was happening.

The result was a great pool and I would recommend Donemans to anyone wanting a pool.
